

## Speaker/Presenter Authorization and Release

The University of Arizona School of Information Resources and Library Science records educational events, guest speakers and other kinds of live presentations in order to share them with students, faculty, alumni and staff who are unable to attend. These recordings, which may include audio or audio and video combined, enrich the educational experience for the majority of SIRLS students who complete their studies online and who cannot attend programs in person. Before we can disseminate the recordings, SIRLS requires this signed release from presenters.

The undersigned does hereby consent to having the presentation described below recorded. The undersigned also authorizes SIRLS to distribute the presentation and related materials on SIRLS website in the form of a podcast or any other format of SIRLS' choosing and in any other media including newsletters, brochures or magazines that further SIRLS' educational mission and outreach to current and prospective students, faculty, alumni and staff. The undersigned retains all rights to any existing copyrights or other intellectual property contained in the presentation.
